DETAILED ACTION

Two Information Disclosure Statements were received with the amendment filed July 15, 2008. Both documents have been reviewed by the Examiner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4, 6 and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Tremblay et al (US 5,533,594).

Tremblay et al discloses a chair lift comprised of a load bearing platform 36 which supports a chair for an individual to sit in, as shown in figure 1, positioned above a rail R. A plurality of wheels are mounted below the load bearing platform and engage multiple sides of the rail. Upper rollers 108 are mounted closest to the load bearing platform and engage the upper surface of the rail. A second set of rollers 118, 120 are mounted on a perpendicular axis to the upper rollers 108 and are shaped to engage a side surface and a lower surface of the rail R. Figure 9 depicts an exploded view of the roller assemblies and the surfaces of the rail they engage. The lower, or second roller 118, 120 are spaced a distance from the upper rollers and are further from the load bearing platform in relation to the closer, upper rollers. The upper rollers act as a fulcrum for the platform when the device encounters inclines in the rail, as is shown with the device moving up a set of stairs. Weight will be transferred from the upper rollers to

the lower rollers on an incline and the lower rollers will impart a greater force on the lower surface of the rail.

Response to Arguments

Applicant's arguments with respect to claims 4, 6 and 8-10 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
